

Minutes of March 19, 1997 ACPB meeting

Approved April 2, 1997

Present: Becker, Cederberg, Lembke, Robinson

Faculty Request:

A faculty member's request to relocate their St. Olaf office computer to their home office was denied.

Consideration of Teaching and Technology Issues:

Roberta noted that in her recent meeting with Dean Pence he had expressed great interest in St. Olaf developing a program in which faculty would mentor other faculty in instructional uses of technology. ACPB members spent the remainder of the meeting discussing ways to structure such a program. To inform our continued discussion, we will look through a document from the Teaching, Learning and Technology Round Table Program.

Other Items:

Jim Pence will consult with Alan Norton for advice on the choice of a procedure for wiring the two remaining residence halls.

Judy Cederberg, recorder
