

## Minutes of April 15, 1998 ACPB Meeting

Present: Becker, Cederberg, Lembke, Robinson

- *Possible Classroom Equipment:* Roberta reported on her visits to Tierny Brothers, where she saw user friendly touch pads that allow switching between technology applications; and to the Carlson Companies, where she saw a system allowing master control of a whole set of monitors.
- *Budget Review:* ACPB members looked over a summary of the current status of the ACC Operating and Capital Budgets for the '97-'98 Academic Year. Each of the budget lines indicates a remaining positive balance.
- *Team Reports:* ACPB members received a draft of a team report from one of the ACC employee teams and will receive similar documents from the other teams.
- *Document Drafts:* Drafts of both a faculty survey of campus learning and teaching facilities and of a classroom inventory were distributed for ACPB members review and suggestions.
- *Computing Requests:* The dollar amount of requests for faculty office equipment appears to be reasonable; however the amount for requests for labs and classrooms is huge.

Judy Cederberg, recorder
