

Minutes of April 29, 1998 ACPB Meeting

Present: Becker, Cederberg, Lembke, Robinson

- *Computing Requests:*
Roberta distributed a spreadsheet containing the computing requests and recommendations for funding. She indicated that she used several priorities in making her recommendations:
 - *Updating Residential Labs:* In order to get adequate numbers of updated computers in these labs, she is recommending upgrading equipment in several department labs so the equipment now in these labs can be moved to residence halls.
 - *Faculty Office Computers:* In general, she is recommending that new computers for faculty offices have 64 meg ram, zip drives and 4 gig hard drives.
 - *Classroom Display Units:* Requests for these received high priority.

ACPB members will look through the recommendations and discuss them in detail at the next ACPB meeting.

- *Candidates for ACPB membership:*
Current ACPB members have solicited names of individuals interested in serving on ACPB. A list of these names will be sent to Dean Pence for his consideration.

Judy Cederberg, recorder
