

Academic Computer Policy Board

Meeting of April 30, 2003

Present: Bjorklund, Lembke, McKelvey, Peters

Approval of Minutes

No minutes were approved.

Agenda Items

- Language Lab Project: The existing trailer will be refurbished to provide a facility for video production. The project has been approved for funding and is slated to be finished by September 1, 2003.
- New IIT Space: Construction has begun on renovating the new IIT space adjacent to IIT's current quarters in Rolvaag. This project is expected to be completed by the end of May, 2003.
- Budget: We discussed the IIT '03-'04 budget.
- RIAA: A long conversation ensued regarding the recent actions of the Recording Industry Association of America in threatening students whose computers are found to be sharing files of copyrighted music. Saint Olaf students are amongst those who have received these letters. We are considering whether to send a letter to all students, sometime in the fall term, alerting them to the potential consequences of illegally sharing copyrighted music. The letter would also help educate students as to the legalities of music file sharing.
- Next meeting: May 7th.

Respectfully submitted,
Steve McKelvey
ACPB Member, 2002-03
