

Minutes of May 21, 1997 ACPB Meeting

Approved May 25, 1997

Present: Becker, Cederberg, Lembke, Robinson

Updates:

1. Roberta reported on her meeting with Alan Norton. He indicated that contingency funds have been set aside to cover the additional projected cost of wiring the remaining two residential halls. The bids are still out on the Science Center wiring. Once the bids are received, the college will proceed with as much of this project as can be financed with the funds already budgeted.
2. Roberta also indicated that the ACC staff will be reorganized to better utilize their resources and indicated some of the changes that will probably occur.

Software Development and Ownership:

ACPB members discussed a draft of a possible statement and suggested some changes. This draft will be sent to Dean Pence for his suggestions.

stolaf-faculty:

Several people have expressed concern that this alias is being overused and that messages to this alias should be more carefully restricted. There is also a question about who should be on the alias list. ACPB members asked Judy to draft a memo to Dean Pence and the Dean's Council recommending that only those holding faculty franchise be on the alias list. Roberta indicated that at the beginning of the new academic year, the ACC will again send out the usual reminders of the appropriate use of the aliases stolaf-faculty, stolaf-extra, etc., and indicate that people can set up a filter to automatically place e-mail from a specific alias into a separate folder.

Judy Cederberg, recorder
