

## **Faculty Development Committee**

### **Minutes of March 18, 2002**

**Present:** Jo Beld, Eric Cole, Elizabeth Hutchins, Heather Klopchin, Arnie Ostebee, Dolores Peters.

#### **Short Items:**

- Minutes from 3/11 were reviewed and approved.

#### **Announcements:**

- Arnie announced that we cannot expect to have our FDC budget determined until after 4/10.
- Jo proposed that we send a note to the FDC applicant pool notifying them of this delay in our ability to make grant allocations.
- Jo suggested we consider posting successful FDC applications on the web. Elizabeth suggested we consider this at a later time.
- Eric raised an issue: Should Leraas funds go only to events with a broad audience in mind, or can interdisciplinary themes be narrowly defined such as a joint biology/chemistry lecture with a scientific audience in mind? Arnie suggested we consider this at a later time.
- The Mellby lecture has been rescheduled for 4/4 and Jo will introduce the speaker.

Attention turned to review of applications for Summer Grants.

Respectfully submitted,  
Eric Cole
