

Some past capstone projects by Biomedical Studies concentrators:

Speakers & Panels

- many students do these so there are a wide range; I have a folder with the flyers from many former panels if you want to look at that

Pamphlets & Booklets

- pamphlet on public health
- manual on preparing for a career in physical therapy
- worksheet on interviewing for medical school

Presentations

- poster on prevention of athletic injuries
- powerpoint presentation on common disorders of female athletes
- powerpoint presentation on health-related off-campus experience

**** PRESENTATIONS CAN BE PUBLIC OR WITHIN A COURSE
(BUT CANNOT DOUBLE-COUNT AS A REQUIREMENT FOR A COURSE) ****

Web Sites

- what to do with a year off between graduation and professional school
- careers in science (other than medical careers)
- humanitarian opportunities

Research Portfolios

- pain management
- implementing prenatal classes in Romania
- ACL injuries in women

Papers

- autobiographical paper, with emphasis on internship experience
- autobiographical paper, with emphasis on how major relates to career goals
- reflective paper on health-related off-campus experience

**** PAPERS MUST BE WELL-WRITTEN AND IN-DEPTH ****
