- Philosophy 257 Environmental Ethics

2. Electives

Students will choose two additional environmental studies courses from among those listed in the core, cognate or disciplinary groups of any of the Major Tracks.

3. Experiential Component

All students concentrating in Environmental Studies will participate in an experience which applies basic knowledge in a setting beyond the classroom. This may be one of the off-campus environmental studies courses/programs, or an internship, or a research project approved by the Chair. Guidelines and a set of approved courses are available from the Chair.
