**St. Olaf College** provides an education committed to the liberal arts, rooted in the Christian gospel, and incorporating a global perspective — ideals embodied in the college's internationally acclaimed music program.

The college offers more than 40 majors, as well as pre-professional programs in everything from architecture to veterinary science. Students interested in majoring in music at St. Olaf have two programs of study from which to choose, the Bachelor of Music degree and the Bachelor of Arts degree.

The quality and variety of musical activity at St. Olaf would not be possible, however, without the talent and dedication of students majoring in fields other than music. More than one-third of the total student body participates extensively in the music program — through course work, private lessons, and an exciting array of ensembles that includes eight choirs, two symphony orchestras, two concert bands, an early music ensemble, jazz ensembles, opera workshop, musical theater and other small ensembles.

In many ways, the people breaking new ground in the performance spaces, labs and classrooms of St. Olaf are kindred spirits to the determined immigrants and pioneers who founded the college over 135 years ago. The tools and challenges have changed, but the quest for knowledge, freedom and excellence is the same. In this sense, the St. Olaf tradition is one of exploration, experimentation and innovation — combined with a Norwegian Lutheran heritage that has dictated a goal that is both pragmatic and idealistic: to prepare young people for lives of worth and service.
