## Petition: Late Registration Change (Revised February 2008)

### Petitioning Procedures:

Please follow these procedures completely and in the order listed.

1. Read the guidelines below for petitioning, plus the appropriate entries in the *St. Olaf Academic Catalog*.
2. Complete all sections of the form, paying special attention to the rationale for your request. Supporting documents may be attached but may not replace the statement of the rationale.
3. Obtain signature(s) and comments from the appropriate individuals listed below (note that for S/U changes, the advisor's signature is required, but students should not request the signature of the course instructor).
4. Return the completed form to the Registrar's window, Administration Building 224.

#### Guidelines:

Please read these guidelines carefully before preparing a petition. Students should also read the appropriate entries in the *St. Olaf College Academic Catalog*, such as: Graduation Requirements, Grade Requirements for the Major, Graded and Ungraded Courses, Deadlines, Petitions, Adding Courses, Dropping Courses, Late Add (Courses), Late Drop (Courses), S/U Option, S/U Changes.

If a petition for a late drop is granted, a notation of WP or WF will be made on the student's transcript to indicate whether the student was doing passing or failing work at the time the course was dropped. The course will not be removed from the student's record. If a student is dropping a course s/he never attended, the instructor must verify lack of attendance.

The graduation requirements of the College, including general education, cannot be waived and are not subject to petition. In rare cases, upon petition, the foreign language requirement may be adjusted, but not waived. Students experiencing foreign language course difficulty should consult with their instructor, their faculty advisor, the Academic Support Center, and/or the Academic Advising Center. This petition form is not used for such petitions. Consult the Registrar.

Responsibility for meeting graduation requirements rests entirely with the student. Students must be cautious about dropping courses or making S/U changes.

The Registrar may approve or deny a student petition, or forward it directly to the Curriculum Committee. If the Registrar enters a decision, students may appeal the decision by resubmitting the petition to the Registrar, who will forward it to the Curriculum Committee. The Curriculum Committee will consider an appeal only in cases where the student has provided substantial, new information regarding the petition. Decisions of the Curriculum Committee are final.

A handling fee of up to \$50.00 will be assigned by the Registrar or by the Curriculum Committee for each approved change.
