

BORSC CORE VALUES

The BORSC Promise

BORSC promises to represent the student body by provoking meaningful dialogue on issues that affect its welfare and by educating the regents on cross-campus trends.

As representatives of the student body, we strive to promote the best interests of the St. Olaf community by facilitating honest communication, understanding common concerns, providing answers and catalyzing positive change.

Our values are represented in TAI BO:

Transparency

we remove separations between regents and students through truthful, straightforward communication

Accountability

we care about what we're saying and take pride in following through

Integrity

we present frank and accurate information to both regents and students

Bridge

we foster two-way communication by creating a forum for discussion

Outreaching

we proactively seek input from all students
