

Application for 2008 HHMI International Scholar Program of Summer Research

This application is for a summer International Research position sponsored through the Howard Hughes Medical Institute (HHMI). Thanks to our most recent HHMI grant, this summer there will be an opportunity for four students to do off-campus summer research with an HHMI International Scholar. Students selected for this program will indicate their top five choices to HHMI, and HHMI will pair the student with an HHMI International Scholar. Information about the location and research programs of the HHMI International Scholars can be found at <http://www.hhmi.org/research/scholars/> (select view all scholars and then organize by name or country). The selection for this opportunity will take place in early January. Please see Dave Van Wylen or Charles Umbanhowar with questions.

Please fill in the application with the information requested below and return the completed application, *along with a copy of a current transcript/audit* (unofficial is okay), to the Biology Department Office (SC212). **Applications are due on Friday, December 7; The Decision will be made by December 14.**

Name _____ Class _____ Major: _____

List three science or math professors who know you well:

Briefly describe any previous research experience you have had:

Briefly describe any international experience you have had:

Describe your career objectives:

What extracurricular activities are you involved with?
