MARY WALCZAK

Professor of Chemistry and Department Chair

Mary Walczak earned her B.A. in chemistry from the University of St. Thomas and her Ph.D. in physical chemistry from Iowa State University before joining the chemistry faculty at St. Olaf in 1992. She has held a variety of leadership positions at the college over the last three decades, including associate dean for natural sciences and mathematics, director of assessment, director of the Collaborative Undergraduate Research and Inquiry Program (CURI), and chair of the Chemistry Department.

Walczak has provided undergraduate research opportunities for 49 students, and served as the faculty supervisor for 72 Rockswold Health Scholars and 35 Health Scholars at the Mayo Clinic.

An early adopter of “active learning,” Walczak has led initiatives to develop classroom materials through the

ChemLinks Consortium, Midstates Consortium, and the Process Oriented Guided Inquiry Learning (POGIL) project. She has published 45 peer-reviewed publications in diverse subjects that include surface science, pedagogy, scholarship of teaching and learning, assessment, and leadership. She is currently working on learning about alternative grading methods, such as standards-based grading, as a strategy to focus students on learning as opposed to grades.

She is the mother and mother-in-law to Sam Walczak '14, Rachel Turbeville Walczak '14, Rachel Walczak Moline '13, and University of St. Thomas alumnus Nate Moline, and wife to Dan Walczak. She can often be found playing with all or any subset of her four grandchildren: Lauren, Calvin, Tessa, and Lucas.

THE ACADEMIC PROCESSION

The traditional academic procession introduces many of the more formal and significant events at St. Olaf, as it does on most college and university campuses. Although the history of wearing distinctive apparel as an indication of scholarship and academic rank dates back to 1321, the practice was not adopted throughout the United States until about 1900.

The cap worn almost universally in academic processions is the Oxford cap, better known as the mortarboard. It is always black. A different style, called the Cambridge cap, resembles a large beret. The use of a dark robe in academic processions is thought to have arisen from the clerical practice of wearing a cape or mantle in religious processions in the 12th and 13th centuries, when universities arose from cathedral schools.

Traditionally, gowns are also black. However, a number of universities have adopted alternate gowns that use their traditional school color. The academic hoods, worn around the neck and down the back of the gown, are in the colors of the college or university conferring the degree. The binding or edging of the hood is usually distinctive of the subject to which the degree pertains: economics, copper; education, light blue; fine arts, brown; humanities, white; law, purple;

library science, lemon; medicine, green; music, pink; nursing, apricot; philosophy, dark blue; physical education, sage green; science, golden yellow; social science, cream; social work, citron; speech, silver gray; and theology, scarlet.

IN EXPLANATION

The general honors list includes all full-time students who have a cumulative grade point average, through January term, of cum laude (3.60) or above.

For further information on grade point requirements, visit the St. Olaf Registrar's Office website at stolaf.edu/offices/registrar.

THE RECEPTION

All students, visiting parents, donors of scholarships and awards, and faculty and staff are invited to a reception in the Crossroads of Buntrock Commons immediately following the Honors Day convocation.

THANK YOU!

Over the years, donors have generously endowed 1,686 funds, paving the way for thousands of students to achieve academic success at St. Olaf.

During our 2024–25 academic year, endowed scholarships and funds helped 1,493 students afford a St. Olaf education

on the Hill, access internships and mentored research, and study away/abroad in 34 countries. Thank you! Your funds provided a combined \$10.9 million in support for Oles, creating extraordinary and important impact.

SPECIAL HONORS AND AWARDS

St. Olaf students successfully compete for a number of nationally competitive fellowships and awards. Among the most competitive national and international fellowships and awards, students this year have received the following:

GAITHER JUNIOR FELLOWSHIP

Through the James C. Gaither Junior Fellows program, the Carnegie Endowment for International Peace offers approximately 15 one-year fellowships to uniquely qualified graduating seniors and individuals who have graduated during the past academic year.

Luanga Kasanga '25, Semi-Finalist
Sofia Chamorro Pilacuan '25, Semi-Finalist

GOLDWATER SCHOLARSHIP

The Scholarship Program honoring U.S. Sen. Barry Goldwater was designed to identify, encourage, and financially support outstanding undergraduates interested in pursuing research careers in the sciences, engineering, and mathematics. The Goldwater Scholarship is the preeminent undergraduate award of its type in these fields.

Sophia González '26

THE RHODES SCHOLARSHIP

The Rhodes Scholarship is a prestigious international award that funds postgraduate study at the University of Oxford. The award recognizes outstanding intellect, character, leadership, and commitment to service.

Mikael Maritz '25, Semi-Finalist

ROSSING PHYSICS SCHOLARSHIP

The Thomas D. Rossing Fund for Physics Education makes available scholarships annually for exemplary students in physics studying at colleges and universities related to the ELCA.
